

EMERGENCY WATER SUPPLY FOR RURAL RESIDENTS | FACT SHEET

Accessing emergency water from Council's town water supply.

During times of extended dry conditions some residents not serviced by town water, who are reliant on tank supply, may require some emergency water while waiting for a tanker to top up their tanks.

Council has made arrangements to supply water to residents requiring an emergency supply of non-potable water. The water is supplied via a metered standpipe and hose at the Nammoona landfill.

Where can I purchase water?

Council's Nammoona Landfill site located off Reynolds Road Casino on Dargaville Drive, opposite the Casino Saleyards. Opening hours are 8.30am to 4.30pm seven days a week; except for public holidays when the facility is closed.

Where do I make payment and what is the cost?

Water can be collected in the resident's containers or tank and the metered amount is charged based on Council's current fees and charges for sale of water from a standpipe. The charge for the 2014/2015 financial year is \$3.95 per kL. Payment by cash at the Nammoona Landfill cashier's office is required.

What can the water be used for?

The water is for residents own private use and is not to be sold to another person. The water should not to be used for potable purposes until the resident has satisfied themselves that it is safe to do so.
