Report by Responsible Accounting Officer

The following statement is made in accordance with Clause 203(2) of the Local Government (General) Regulations 2005:

It is my opinion that the Quarterly Budget Review Statement for Richmond Valley Council for the quarter ended 30 September 2018 indicates that Council's projected financial position at 30 June 2019 will be satisfactory, having regard to the projected estimates of income and expenditure and the original budgeted income and expenditure.

From a cash perspective, the projected cash deficit for 2018/2019 has improved to an estimated surplus as at 30 September 2018 of \$302,007. This is largely as a result of a comprehensive review of Council's capital works program, with recommended changes being a reduction of \$2,214,529. This still leaves a sizeable capital works program of \$31,295,923 which will need to be closely monitored in future Quarterly Budget Reviews.

Date:

15/11/2018

With approval of the special rate variation, Council has taken steps to reduce cash deficits whilst still being able to maintain adequate expenditure on new capital projects and maintenance of existing assets. Delivery of capital budgets will continue to be monitored in future budgeting processes as this has a significant effect on the cash result.

Signed: Ryah Galter Responsible Accounting Officer

Notes Details

6 Sports Grounds, Parks and Facilities

Operating Income Capital Grants and Contributions **Total Income from Continuing Operations**

Council was successful in obtaining funding from the NSW Department of Primary Industries towards riparian restoration works in Coraki. \$4,000 was received in 2017/2018, with the balance of grant funding of \$15,996 to be received in 2018/2019. In addition, Council received \$2,273 under the Coraki Healthy Towns Tree Planting program.

In regards to capital grants, there was an error in the original budget. In previous years, Council budgeted \$85,000 in capital expenditure in anticipation of being successful with the equivalent in capital grant funding during the year. The capital expenditure budget was removed for 2018/2019, however the \$85,000 in capital grants remained. This has now been corrected.

Expenses from Continuing Operations

Operating expenditure has increased by \$158,462. This is due to funding for riparian restoration works in Coraki of \$19,996 as well as \$2,273 for the Coraki Healthy Towns Tree Planting program. In addition, a comprehensive review of depreciation budgets has been undertaken in line with actuals from 2017/2018 and including allowances for current year additions. This has increased the depreciation budget for Sports Grounds, Parks and Facilities by \$126,193. In addition, \$10,000 has been transferred to playground maintenance to undertake works identified in park audit inspections. This has been funded from the parks renewals capital budget.

Capital Expenditure

Capital expenditure budgets have decreased by \$134,459. This is mainly due to a decrease of \$86,682 to the Casino Drill Hall Amphitheatre and Riverside Precinct project as well as a reduction of \$44,751 for upgrades to the Evans Head Surf Club.

The Casino Drill Hall Amphitheatre and Riverside Precinct project has been spread over two years and this reduction is simply a result of Council having spent \$86,682 more than budgeted in 2017/2018, leaving that much less to spend in 2018/2019.

Council receives annual funding of approximately \$22,000 from Reflections Holiday Parks towards capital renewals at the Evans Head Surf Club. Council had budgeted to undertake no works in 2017/2018 and \$44,751 in 2018/2019. \$45,000 in works were subsequently undertaken in 2017/2018, so no works will now be done in 2018/2019.

In addition, \$10,000 has been allocated from the park renewals budget to playground maintenance works as well as other minor adjustments.

7 **Community Centres and Halls**

Expenses from Continuing Operations

A comprehensive review of depreciation budgets has been undertaken in line with actuals from 2017/2018 and including allowances for current year additions. This has increased the depreciation budget for Community Centres and Halls by \$23,774.

13 Private Works

| Income from Continuing Operations | \$432,600 |
|-------------------------------------|-----------|
| Expenses from Continuing Operations | \$360,000 |

Income and expenditure budgets have been adjusted in line with actual private works with a major one off project having been undertaken by Council.

The following notes detail budget variations of \$5,000 or more (or if material to the overall program) from the Original Budget as al 1 July 2018 to the Revised Budget as at 30 September 2018, excluding monthly budget adjustments previously adopted by Council.

Variation Notes Details Waste Management 14 (\$20,000) Income from Continuing Operations Due to the timing of the cell capping at Bora Ridge Landfill, the construction of a transfer station will carry over to 2019/2020. This has decreased capital grants by \$20,000. Expenses from Continuing Operations \$63,162

A comprehensive review of depreciation budgets has been undertaken in line with actuals from 2017/2018 and including allowances for current year additions. This has increased the depreciation budget for Waste Management by \$42,950. Additionally, \$20,000 has been transferred from capital expenditure for a waste composition audit as well as \$212 towards waste education initiatives, funded through the Better Waste and Recycling grant.

Capital Expenditure

A comprehensive review of the waste capital works program has been undertaken and a number of projects have been adjusted. These are detailed below:

| Bora Ridge Transfer Station - deferred to 19/20 due to timing of cell capping | (\$295,960) |

Notes Details 18 Governance and Advocacy Capital Expenditure (\$6,960) Council carried over \$38,100 for signature project master planning. \$6,960 of this has been allocated towards increasing the budget for the master plan of the Casino Showground. 19 **Financial Services**

Income from Continuing Operations

Council received notification of its Financial Assistance Grant entitlement for 2018/2019, in which 50% was received in advance in June 2018. Assuming another advance payment will be made in June 2019, Council's actual grant funding is \$199,525 higher than the original budget.

20 **Engineering Support and Asset Management**

Expenses from Continuing Operations

A comprehensive review of depreciation budgets has been undertaken in line with actuals from 2017/2018 and including allowances for current year additions. This has increased the depreciation budget for Engineering Support and Asset Management by \$22,010.

Capital Expenditure

Allocation for removal of fill at the Evans Head Memorial Aerodrome and placement at the Evans Head Works Depot. This will expand the Evans Head Works Depot by filling the vacant land at the rear of the property. The removal of the stockpile of material at the Evans Head Memorial Aerodrome is required prior to the sale of the land.

21 Fleet Management

Expenses from Continuing Operations

A comprehensive review of depreciation budgets has been undertaken in line with actuals from 2017/2018 and including allowances for current year additions. This has increased the depreciation budget for Fleet Management by \$114,450.

Capital Expenditure

The fleet purchases budget has been decreased by \$109,778. Council received and paid for a number of light fleet replacement vehicles in late June 2018 which were initially expected to be delivered in July 2018. In addition, a number for other plant items were not purchased by 30 June 2018, so these have been allowed for in 2018/2019.

Purpose: This ratio measures Council's achievement of containing operating expenditure within operating revenue. Commentary: Council's Operating Performance Ratio is below the benchmark of 0%. Council obtained a special rate variation over 5 years and has taken steps to address this ratio as part of the current 10 year Long Term Financial Plan. The 2018/2019 ratio will be adversely affected by a significant increase in depreciation as a result of the revaluation of its Roads, Bridges and Footpaths in 2017/2018.

Purpose: This ratio measures fiscal flexibility. It is the degree of reliance on external funding sources such as operating grants and contributions.

Commentary: Council's Own Source Operating Revenue Ratio is above the benchmark of 60% on a consolidated basis and indicates a trend towards less reliance on grants and contributions. The general fund ratio is just under the benchmark meaning an increased focus needs to be made in generating other revenue sources within that fund.

Definition of a consultant:

A consultant is a person or organisation engaged under contract on a temporary basis to provide recommendations or high level specialist or professional advice to assist decision-making by management. Generally it is the advisory nature of the work that differentiates a consultant from other contractors.

Comments:

All consultancies and legal expenses incurred to date are within budget allocations. All figures exclude GST.
