Introduction

Richmond Valley Council is governed by the provisions of the Local Government Act 1993. Section 8 of the Local Government Act 1993 outlines the Council's charter which provides for Council to 'raise funds for local purposes by the fair imposition of rates, charges and fees, by income earned from investments and, where appropriate by borrowings and grants.'

This Revenue Policy which is part of Council's Operational Plan provides details of the following in accordance with Clause 201 of The Local Government (General) Regulation 2005:

- Estimated income and expenditure
- Ordinary rates and special rates
- Proposed fees and charges
- Proposed pricing policy/methodology
- Proposed borrowings

In accordance with Clause 201 (4) of The Local Government (General) Regulation 2005, the statement of fees and structure of the pricing methodology does not include information that could confer a commercial advantage on a competitor of the Council.

Pricing Policy

1. All fees and charges not subject to regulatory control are to be reviewed on an annual basis in conjunction with the annual estimates.
2. In reviewing fees and charges, consideration will be given to a full cost recovery principle on a fee for service basis. This principle will only be applied where the cost of the service provision can be accurately determined and the end user accurately identified.
3. Where full cost recovery cannot be applied to determine the price or charge, the alternative price will be based on:
 - The cost to Council.
 - The suggested price for that service published by any relevant body.
 - The importance of the service to the community (Community Service Obligation).
 - The projected Consumer Price Index (CPI) for the period.
 - The competitiveness of fees and charges with those charged by other organisations.
4. Where the fee or charge relates to Council businesses that are classified Category 1 or Category 2 in accordance with National Competition Policy guidelines, the fee or charge will be based on full cost recovery. If the fee or charge is not based on full cost recovery then any subsidy granted to the business by the Council will be disclosed.

Goods and Services Tax (GST)

Council is required to include Goods and Services Tax (GST) on its fees and charges. All prices listed for Council's fees and charges are inclusive of GST except where indicated. Some fees and charges levied by Council are exempt from GST in accordance with the Federal Treasurer's Determination under Section 81-5 of A New Tax System (GST) Act 1999. Each fee and charge levied by Council has been reviewed with respect to its GST status and at time of publication of this document is correct. However, if a fee or charge is shown as being subject to GST and is subsequently proven not to be subject to GST, then the fee will be amended by reducing the GST to nil. Conversely if Council is advised that a fee which is shown as not subject to GST becomes subject to GST then the fee will be increased but only to the extent of the GST. To assist in determining the GST status of the fees and charges published in this document, the following legend is used to indicate GST status for each fee or charge in the column titled 'GST Included':

- Y = Deemed to be taxable and fee/charge includes GST
- N = Deemed to be non-taxable and fee/charge excludes GST

Pricing Categories

Where applicable each fee or charge has been categorised with the following legend that demonstrates on what basis each fee or charge has been determined in accordance with Council's revenue policy:

PRICING CATEGORY	DESCRIPTION
A	Significant Partial Cost Pricing - The price for this good/service is set to make a significant contribution towards the cost of providing the good/service. The remainder of the costs is met from general purpose revenue.
B	Regulatory Pricing - The price charged for this good/service is a regulatory charge set by government regulation.
C	Minimal Partial Cost Pricing - The price for this good/service is set to make a minimal contribution to the annual operating and maintenance costs of the facility. The remainder of the costs are met from general purpose revenue.
D	Rate of Return Pricing - The price for this service is set to make a contribution towards the cost of replacing the infrastructure assets utilised in the provision of the good/service.
E	Full Cost Recovery Pricing - The price for this good/service is based on the full cost of providing the good/service.
F	Reference Pricing - The price for this good/service is set by reference to prices charged for similar goods/services provided by like Councils.

Statement of Rates, Charges, Fees and Loan Borrowings

Statement of Rates

In accordance with Section 492 and 493 of the Local Government Act 1993, Richmond Valley Council proposes to levy general land rates for the following categories:

- Residential
- Rural Residential
- Farmland
- Business

For the 2019/2020 financial year, Council will be continuing a unified rate structure for all rating categories of Residential, Rural Residential, Farmland and Business.

All general land rates within all categories will be made/levied on the basis of a base amount plus an ad valorem rate for 2019/2020.

Council will also apply land values for the purposes of calculating rates that have been supplied by the NSW Valuer General. Council is required by the provisions of the Valuation of Land Act 1916 to apply these valuations and the base date of the land valuations is 1 July 2016.

The Independent Pricing and Regulatory Tribunal of NSW has announced a rate peg amount of 2.7% for the 2019/2020 financial year. Council also made an application to the Independent Pricing and Regulatory Tribunal of NSW in accordance with Section 508(2) of the Local Government Act 1993 to increase the overall general land rate yield up to 2.8% for the 2019/2020 financial year. This application has been approved which will equate to a 5.5% increase in general rate yield inclusive of the rate peg amount. Council proposes to apply the following rates structure for 2019/2020:

RATE CATEGORY	ASSESS	BASE AMOUNT (\$):	YIELD FROM BASE	AD VALOREM AMOUNT (\$):	ESTIMATED YIELD (\$):	GST INCLUDED
Residential	7,848	310.00	30.27%	0.00571	8,038,246	N
Sub Category - Rural Residential	603	260.00	29.16%	0.00397	537,619	N
Business	667	360.00	12.07%	0.0165	1,988,762	N
Farmland	1,542	360.00	21.22%	0.00421	2,616,619	N
Total	10,660				13,181,246	

Statement of Charges

In accordance with Section 496, 496A, 501, and 552 of the Local Government Act 1993, Council will levy annual charges for the following services:

- Sewerage
- Water
- Domestic Waste Management
- Non Domestic Waste Management
- Drainage (Stormwater Management Service Charge)

In accordance with Section 502 of the Local Government Act 1993, Council will levy charges for actual use for the following services:

- Sewerage
- Water
- Non Domestic Waste Management

Water, Sewerage and Non-Domestic Waste Management Charges relating to non-rateable properties will be charged in accordance with Section 502 of the Local Government Act 1993. For the purpose of charging these properties that actually use these services, the charges to apply are the same as those charged to rateable properties as the charges are representative of use.

Statement Sewerage and Water Charges

For the 2019/2020 financial year, Council will continue a uniform charging regime for sewerage and water across the entire Richmond Valley Council area. The charging regime is based on the requirement by the NSW Office of Water to promote best practice pricing and for Council to comply with the requirements of National Competition Policy. The rationale for best practice pricing is to provide:

- Fair pricing to equitably share the cost of service provision and remove significant cross subsidies.
- Appropriate pricing signals which enable customers to balance the benefits and costs of using the services, thereby promoting efficient use and reduced wastage.
- Full cost recovery.

Sewerage Charges

Sewerage Charges to be implemented for 2019/2020 are based on the following formula in accordance with the best practice pricing guidelines:

$$\text{SDF} \times (\text{AC} + \text{C} \times \text{UC})$$

Where:

- SDF = Sewerage discharge factor
- AC = Water meter access charge based on size of water meter
- C = Water consumption measured in kilolitres
- UC = Sewerage usage charge per kilolitre

In accordance with the best practice guidelines, Council's sewerage charging structure for 2019/2020 is as follows:

SEWERAGE CHARGE CATEGORY	SERVICES	CHARGE (\$):	ESTIMATED YIELD (\$):	GST INCLUDED
Vacant Charge (Residential) **	165	997.00	164,505	N
Vacant Charge Non-(Residential) **	87	997.00	86,739	N
Residential Charge	6,591	997.00	6,571,227	N
Non-Residential Charge***			1,344,991	N
20mm Water Service	447	$(161.00 + (2.45 \times C)) \times \text{SDF}$		N
25mm Water Service	78	$(192.00 + (2.45 \times C)) \times \text{SDF}$		N
32mm Water Service	40	$(400.00 + (2.45 \times C)) \times \text{SDF}$		N
40mm Water Service	62	$(627.00 + (2.45 \times C)) \times \text{SDF}$		N
50mm Water Service	50	$(982.00 + (2.45 \times C)) \times \text{SDF}$		N
65mm Water Service	2	$(1,658.00 + (2.45 \times C)) \times \text{SDF}$		N
80mm Water Service	6	$(2,512.00 + (2.45 \times C)) \times \text{SDF}$		N
100mm Water Service	16	$(3,925.00 + (2.45 \times C)) \times \text{SDF}$		N
200mm Water Service	1	$(15,355.00 + (2.45 \times C)) \times \text{SDF}$		N
SF	5			
Total	7,550		8,167,462	

** The vacant charge may be applied to all vacant land that is not connected to the sewerage system but is within 75 metres of a sewerage main and considered capable of being serviced.

In the above table C = water consumption measured in kilolitres and SDF = sewerage discharge factor that represents the amount of water consumed returned to the sewerage system.

In calculation of the above charges, the following sewerage discharge factors (SDF) are to be utilised:

For Non-Residential Customers = 0.95

(doesn't include commercial customers who have negotiated a sewerage discharge factor based on the actual water returned to the sewer system)

Council also reserves the right to amend the sewerage discharge factor on an annual basis to represent actual water returned to the sewerage system for non-residential customers in consultation with those users. If the actual discharge to the sewerage system is proven by a non-residential consumer to be less than the standard guideline discharge factor, Council will charge on the basis of the proven discharge factor. As an example, if a non residential customer demonstrates only five percent of the water consumed is returned to the sewerage system, than the discharge factor will be five percent.

*** The minimum charge for any allotment is equivalent to the residential charge including individual allotments that have been amalgamated for rating purposes.

It should also be noted that in the application of the best practice pricing guidelines for sewerage charges, the following is to apply in respect of strata title units/flats and properties rated as one rate assessment but containing multiple flats/units known as multiple occupancies:

- In terms of residential strata unit/flats, the sewerage charge equivalent to the residential sewerage charge will be applied to each strata unit/flat.
- In terms of multiple occupancy residential units/flats the sewerage charge levied to the assessment will be based on the number of units/flats contained in the multiple occupancy multiplied by the multiple occupancy sewerage charge.
- If the residential strata/unit/flats or multiple occupancy residential units/flats are within 75 metres of the nearest sewerage main but not connected to the sewerage system then the number of units/flats contained in the strata title or multiple occupancy will be multiplied by the sewerage vacant charge.

Water Charges

In accordance with best practice guidelines, Council will continue with a user pays water system comprising of a two part tariff for residential customers that includes a fixed access charge based on the size of the water meter connected and consumption charges based on water consumed measured in kilolitres. Council's water charging structure for 2019/2020 is as follows:

WATER CHARGE CATEGORY	SERVICES	CHARGE \$	ESTIMATED YIELD \$	GST INCLUDED
Consumption Charges				
Residential Consumption Charges		2.45 a kilolitre for the first 200kl 3.73 a kilolitre greater than 200kl	2,784,032	N

200mm Water Service	0	15,355.00	0	N
Total Residential Water Access Charges	7,069		1,147,529	
Non-Residential Water Access Charges				
20mm Water Service	682	161.00	109,802	N
25mm Water Service	89	192.00	17,088	N
32mm Water Service	45	400.00	18,000	N
40mm Water Service	70	627.00	43,890	N
50mm Water Service	65	982.00	63,830	N
65mm Water Service	2	1,658.00	3,316	N
80mm Water Service	8	2,512.00	20,096	N
100mm Water Service	27	3,925.00	105,975	N
200mm Water Service	1	15,355.00	15,355	N
Total Residential Water Access Charges	989		397,352	
Total	8,058		6,634,611	

Where a property that is located within 225 metres of a water main and is a vacant property then that property may be charged an access charge equivalent to the access charge for a 20mm water service.

Where a water meter is installed to service a fire service and only a fire service, the access charge to be levied will be nil. Where a property increases a water meter or meters to a larger size due to installation of a fire service in conjunction with normal water use, the access charge will be charged based on the size of the meter replaced. For example if an existing 100mm meter is replaced by a 150mm meter to cater for fire service provision in addition to normal water use, then the access charge to be charged will be the 100mm meter access charge.

In regard to a situation where a water meter is proven not to record correct water consumption, the provision of clause 158 of the Local Government (General) Regulation 2005 is to apply in terms of determining billable consumption. In this regard consumption will be determined on the basis of daily consumption equal to the average daily consumption during the corresponding meter reading period of the previous year.

It should also be noted that in the application of the best practice pricing guidelines for water charges, the following is to apply in respect of strata title units/flats and properties rated as one rate assessment but containing multiple flats/units known as multiple occupancies:

- In terms of residential strata unit/flats, the water availability charge equivalent to the residential 20mm connection size access charge will be applied to each strata unit/flat. Water consumption charges will be charged to the body corporate of the strata title.
- In terms of multiple occupancy residential units/flats the water availability charge levied to the assessment will be based on the number of units/flats contained in the multiple occupancy multiplied by the residential 20mm connection size access charge. In addition to this water consumption charges will also apply.
- If the residential strata/unit/flats or multiple occupancy residential units/flats are within 225 metres of the nearest water main but not connected to the water system then the number of units/flats contained in the strata title or multiple occupancy will be multiplied by the residential 20mm connection size.

Statement Waste Management Charges

In accordance with Section 496 of the Local Government Act 1993, Council will charge an annual Domestic Waste charge for all customers provided with a domestic waste collection service throughout the Richmond Valley Council area. Where a domestic waste service is available but not used by a customer, that customer will be charged a waste availability charge

In accordance with Section 501 and Section 502 of the Local Government Act 1993, Council will charge an annual Non Domestic Waste charge for all customers throughout the Richmond Valley Council area provided with a waste collection service not of a domestic nature.

It should be noted that waste charges are annual charges whether the service is used weekly or not. However, in relation to both domestic and non domestic waste charges any notification of changes to services and the charge applicable will be calculated on a pro-rata per rates instalment basis.

Additionally charges for both domestic waste and non domestic waste are a per service charge. A domestic service is defined as one red lidded residual waste bin collected on a fortnightly basis, one yellow lidded co-mingled recycling bin collected on a fortnightly basis and one green lidded food organics and garden waste bin collected on a weekly basis. A domestic service may also utilise additional co-mingled domestic recycling only charge and/or a green lidded food organics and garden waste only charge. This additional service availability is subject to approval.

The Non Domestic/Commercial service is a weekly red lidded residual waste bin, one yellow lidded co-mingled recycling bin collected on a fortnightly basis and one green lidded garden waste bin collected on a fortnightly basis. Non Domestic/ Commercial may also utilise additional co-mingled or garden green waste services only at a separate non-domestic only charge. In 2019/20 Non Domestic customers have the option of paying to take up food organics and garden organics (FOGO) by converting the fortnightly garden organics service into a weekly FOGO service. If a property has multiple waste bins or collection per week then the charge levied is adjusted accordingly.

Council continues to charge a Waste Infrastructure Charge to be used to partially fund the construction of the new cell 6 (essential infrastructure) at Nammoona Landfill and ongoing asset renewals of the Waste Management Program.

The proposed waste management charges to be applied by Richmond Valley Council for 2019/2020 are as follows:

Statement Stormwater Service Management Charge

The Local Government (General) Amendment (Stormwater) Regulation 2006 commenced on the 13 April 2006. This regulation now allows all Councils in New South Wales to raise an annual charge for Stormwater Management Services. The Stormwater Management Service charge is designed to fund the management of the quantity and quality of stormwater that flows off land and includes a service to manage the re-use of stormwater for any purpose.

This charge is to apply for all properties within urban areas that are rated residential or business except vacant land (land not containing a building or impervious surfaces) for which Council provides a stormwater management service. The charge can only be raised when Council is to provide additional or a higher level of stormwater management service to eligible land than currently provided from general income.

Department of Housing properties and non-rateable properties are exempt from the Stormwater Service Management Charge. Expenditure of the Stormwater Management Service Charge can be both either recurrent or capital expenditure on the following services:

- Planning, construction and maintenance of drainage systems including pipes, channels, retarding basins and waterways receiving urban stormwater.
- Planning, construction and maintenance of stormwater treatment measures, including gross pollutant traps and constructed wetlands.
- Planning, construction and maintenance of stormwater harvesting and reuse projects.
- Planning and undertaking of community and industry stormwater pollution education campaigns.
- Inspection of commercial and industrial premises for stormwater pollution prevention.
- Cleaning up of stormwater pollution incidents.
- Water quality and aquatic ecosystem health monitoring of waterways, to assess the effectiveness of stormwater pollution controls.
- Monitoring of flows in drains and creeks, to assess the effectiveness for flow management (flooding) controls.
- Non-permanent staff specifically appointed to work on stormwater management projects(s).

The Stormwater Management Service Charge is charged on the following basis being the lower of:

- \$25.00 per residential property per annum (maximum).
- \$12.50 per residential unit per annum multiple occupancy premises (maximum).
- \$12.50 per residential strata unit per annum (maximum).
- \$25.00 per business property per 350 square metres or part thereof for properties
- \$25.00 per business strata property per 350 square metres or part thereof then divided by the unit entitlement.
- For business properties where land area exceeds 4,200 square metres or in exceptional circumstances the area for purposes of the stormwater charge is calculated to be the impervious area divided by 0.9. This is derived from the assumption on page 10 of the Department of Local Government Stormwater Management Service Charge Guidelines that a business lot is 90% impervious.
- The cost of providing the additional stormwater management services.
- There is no statutory pensioner reduction available to the Stormwater Service Management Charge nor any voluntary pension rebate from Council.

To implement the Stormwater Management Service Charge, Council must ensure the following information is disclosed in the Operational Plan:

- Proposed stormwater management services that are to be funded by the annual stormwater management plan.
- Proposed stormwater management services to be funded from sources other than the stormwater management charge.
- Proposed stormwater management services to be funded from both the stormwater management service charge and other sources noting the proportion funded from other sources.
- Proposed total expenditure for the provision of stormwater management services.

The proposed stormwater service management charges to be applied by Richmond Valley Council for 2019/2020 are as follows:

Payment Schedule of Rates and Charges Excluding General Fees and Charges

Rates and charges excluding general fees and charges will continue to be paid in four quarterly instalments as follows:

INSTALMENT	ISSUED	DUE DATE
First	31 July 2019	31 August 2019
Second	31 October 2019	30 November 2019
Third	31 January 2020	28 February 2020
Fourth	30 April 2020	31 May 2020

During the year in accordance with the Local Government Act 1993, a supplementary levy may be issued which will affect the number of instalments paid by the ratepayer. The rates and charges are apportioned over the instalment due dates that remain after the supplementary levy is applied. In an attempt to alleviate hardship that may arise in this situation, consideration will be given to the formulation of an agreement with the ratepayer under Section 564 of the Local Government Act 1993 for the payment of rates and charges and the waiving of interest penalties if the agreement is adhered to.

Ratepayers Experiencing Hardship Generally

Ratepayer experiencing financial hardship in respect of payment of Council rates and charges can apply to Council for alternative payment options to assist the alleviation of such hardship. Should you be experiencing financial hardship, please contact Council's Revenue Officer who will discuss options in confidence and advise what can be done to assist ratepayers with the payment of rates and charges.

Interest on Rates and Charges Excluding General Fees and Charges

The NSW Minister for Local Government announces in accordance with Section 566(3) of the Local Government Act 1993 the maximum amount of interest that can be levied on overdue rates and charges. For the 2019/2020 financial year, the NSW Minister for Local Government has set the interest rate at 7.50% per annum. Council will apply the interest rate for 2019/2020 as determined by the NSW Minister for Local Government.

Statement of Loan Borrowings

Council has no planned borrowings in the 2019/2020 financial year.

General Fees and Charges

Section 608 of the Local Government Act 1993 authorises Council to charge and recover an approved fee for any service it provides other than a service it provides on an annual basis for which it is authorised or required to make an annual charge under Section 496 or 501 of the Local Government Act 1993. In determining fees under Section 608, Council is required to take into consideration the following factors as required by Section 610(D) of the Local Government Act 1993:

- The cost to Council of providing the service.
- The price suggested for that service by any relevant industry body or in any schedule of charges published, from time to time, by the Office of Local Government.
- The importance of the service to the community.
- Any factors specified in the regulations.

Section 610 of the Local Government Act 1993 prohibits Council from determining a fee that is inconsistent with a fee determined by another Act, Council charging a fee in addition to the fee determined by another Act or charging a fee under the Local Government Act 1993 if the fee is prohibited from being charged under another Act.

Council's organisational structure for the purposes of fees and charges is based on the Departments of Corporate Support and Infrastructure and Environment. The following schedules of fees and charges are listed in respect to the Departments responsible for setting the fee or charge.

Sporting Grounds

General Sporting Fields Notes:

Exemption applies for all Defence Force and Emergency Services, Remembrance Days for use of Council Parks, Reserves and Beaches.

Per Field/Per Week charges are applied for the length of season that the sporting club utilises the facility (including pre season training).

The fee assumes the facility is utilised for both training and competition.

Where the facility is used only for training or only competition then 50% of the fee will be applied.
